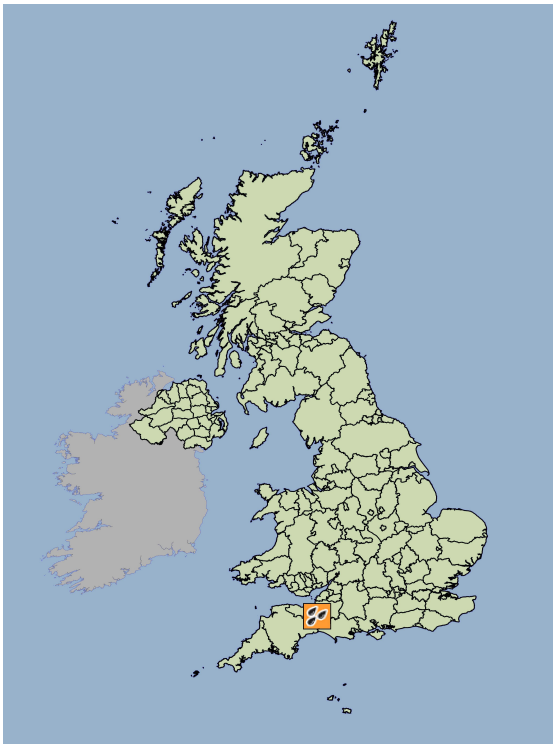
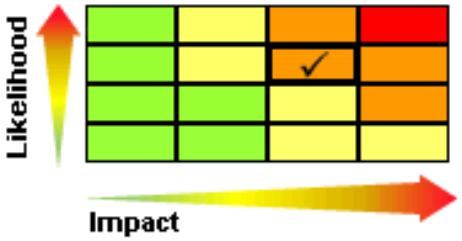
National Severe Weather Warning Service





Chief Forecasters Assessment
Another very deep area of low pressure will spread heavy rain and strong to gale force winds eastwards across southwest during Friday, before the associated frontal systems clear the during the early hours of Saturday. 20-30 mm of rain is likely during the period, possibly exacerbating the current flooding situation.

The Met Office have issued an **Amber Warning** of **Rain**

Valid from **12:00 on Fri, 31st Jan 2014** until **03:00 on Sat, 01st Feb 2014**

Heavy rain will affect southwest England on Friday before clearing overnight into Saturday. Heavy, squally showers will then follow from the west on Saturday morning.

The public should be prepared for the likelihood of significant disruption from flooding across the Somerset Levels.
